

PRO TEMPORIS LEGISLATURE

Weekly Meeting of the Executive and Advisory Councils.

There were present at the meeting of the Executive and Advisory Councils this afternoon: W. C. Wilder, president; Ministers (Hatch, King, Dancy and Smith); Councilors (Brown, Egan, Waterhouse, Allen, D. B. Smith, Bode, Meadows, Lamm, and McCallister).

A petition was received from F. H. Wagner to grant him a license to operate a distillery, referred to Minister of the Interior.

Minister Dancy read the financial statement. Receipts were \$18,311.41 from \$12,000 in customs and \$6,311.41 taxes. Expenditures were \$12,577.90, including \$5,113.27 under the Loan Act. Notices of withdrawal from the Postal Savings Bank for Sept., Oct. and Nov. were \$9,325.45 and cash on hand in that institution \$62,633.32. Expenses of Provisional Government, not including appropriation of \$127.10, to March 31, 1894, were \$23,150.16.

Mr. Brown reported from the Judiciary Committee, submitting a bill to appropriate \$52.40 as salary one John P. Colburn as Minister of the Interior in 1893.

He also reported a bill relating to importations of merchandise and material for the Bishop Museum.

Also, a report in favor of granting Vincent Fernandez and Peter Quinn restoration of their civil rights.

The reports were adopted.

Mr. Brown introduced a bill to amend the law relating to charters of corporations.

Mr. Emmelhuth asked about his questions of two weeks ago regarding Japanese immigration. Had the Executive any answers ready?

Mr. Hatch replied that the matter had received consideration, but he would ask the indulgence of further time.

Mr. Emmelhuth had a further question to ask. Was there any truth in the report that Mr. Thurston had gone to Europe for plantation labor?

Minister Hatch said an agent of the planters' company went to the Azores some months since. No report having been received from that agent, the Government determined to dispatch Mr. Thurston at once to the Azores to gather information and to make arrangements for the immigration of Portuguese laborers from those islands. Negotiations had been going on between the planters' labor and supply company and the Government, so that Mr. Thurston might make arrangements at once with Mr. Gladstone concerning the transportation of immigrants. Mr. Thurston was also authorized to proceed to Lisbon and there, if deemed necessary, negotiate a treaty with the Government of Portugal regarding Portuguese immigration.

Mr. Emmelhuth then asked if there was any probability of the Labor Commission being filled at the present time. The reason for this question was that he had a bill for amending the act so as to make it obligatory on the Government to appoint members from particular classes, such as planters or mechanics.

Minister Hatch answered that there had been difficulty in finding individuals to comply with the law. One appointment was yet to be made representing the planting interest.

Mr. Emmelhuth now asked openly what he had spoken to the Minister of the Interior about privately, if the party walls of S. C. Allen's new building complied with the fire limits law.

Minister King replied that the Superintendent of Public Works had informed him the plans and specifications were in conformity with the law. Mr. Rowell was now absent from the city, but when he returned he (Minister King) would have him take measurements.

Mr. Emmelhuth next called attention to a wooden building placed on Fort street near the Honolulu Planting Mill. It was an outrage if people were allowed to build wooden shacks about within the fire limits. He asked if permits had been issued in this and other cases of queer buildings which he denoted.

Minister King said permits had not been asked for.

Mr. Emmelhuth introduced his amendment to the Labor Commission law.

Minister Dancy introduced a resolution to pay the printing bill—\$254.11—of the Constitutional Convention. Carried.

The bill to amend the Boundary Commission law was read a second time by title and referred to the Judiciary Committee.

The bill relating to elections came up for third reading and was read clause by clause.

Mr. Allen moved an amendment to allow the hiring of enragers to carry voters to the polls. Carried.

Other amendments were made mostly in the line of reducing the strictness of the measure. The bill passed as amended.

The bill relating to bonds of Government employees came up for third reading and passed without discussion.

Mr. Emmelhuth asked of the Executive whether, when a person is refused registration under the special rights clause, is he informed that he can obtain letters of denization. Some one who was known to be a supporter of the Government had been refused the special rights privilege.

Minister Smith said that in some cases the board of examiners had neglected the usual practice of notifying disappointed applicants of the alternative.

At 2:50 the Councils went into executive session.

HAWAIIANS AND I. O. O. F.

D. D. G. S. Fisher Heard from in the Sovereign Grand Lodge.

In a telegraphic report of the Sovereign Grand Lodge of Odd Fellows, in session on the 19th inst. at Chattanooga, Tennessee, the following appears:

"The secretary directs attention to the fact that the color question has arisen in the Hawaiian Island lodges. The constitution of the Odd Fellows limits membership to 'free white males.' Grand Sir Fisher reports from the Sandwich Islands: 'We have members in our lodge who are married to three quarter whites and their children are seven eighths white. They are just as fair as anybody born in the States, are American citizens and belong to our secret organization, and when they return to their mother's native country they are not permitted to join the order. I consider it a great injustice.'"

John W. Stebbins of Maryland was unanimously elected Grand Sir, Atlantic City, New Jersey, was chosen as the next place of meeting.

Part of the Cargo Drifts Ashore on This Island—News Up to Date.

Three cases of general merchandise, belonging to the cargo of the wrecked bark Geo. N. Wilcox, drifted ashore at Kahuku this morning, and hatches were picked up on the beach at Diamond Head, near J. Campbell's residence. It is believed that the stuff got clear of the wreck between Saturday and Monday night.

The steamer J. A. Cummins left the wreck on Saturday afternoon and the Hakekaka left here for the wreck on Monday evening. In the meantime the goods floated away.

The J. A. Cummins left Waianae at 10 o'clock yesterday morning and barring accidents would have arrived at Kalaheokaili Point about 2 o'clock yesterday afternoon. She had instructions to come right back to Honolulu and report how the wreckers are getting along. The steamer did not arrive last night as expected, being evidently detained on very important business, such as picking up goods floating around.

Nothing Strange.

Intelligent people, who realize the important part the blood holds in keeping the body in a normal condition, find nothing strange in the number of diseases Hood's Sarsaparilla is able to cure. So many troubles result from impure blood, the best way to treat them is through the blood. Hood's Sarsaparilla vitalizes the blood.

Hood's pills are the best after-dinner pills, assist digestion, prevent constipation.

Rare Chance.

Ladies who are on the lookout for Christmas presents should call at the Ceylon jeweler's store on Nuuanu street, where they can buy the best goods out from Ceylon at clearance sale prices. There are rubies, sapphires, emeralds, pearls, cats' eyes, etc. Also hand-made lace, and everything is being sold out regardless of cost.

Miniature Art.

At Williams' Studio are to be seen Portraits on Watch Dials, which he is making a specialty of. Lantern Slides for lecture by the set or dozen.

LOCAL AND GENERAL NEWS.

Two more swipes sellers were pulled in by the police to-day.

Mr. Lodian, correspondent of a syndicate of 75 papers all over the world, leaves for Sydney to-night after writing up Honolulu.

Ex-captain Langley states that he was not in Fitzgerald's house, when the police were there on Saturday last searching for Featherstone.

Still they come. A police officer was found guilty of assault and battery on a Chinaman in the District Court to-day and was sentenced to pay a fine of \$50.

Augustus Paul, a well known colored man, died at the Queen's hospital yesterday evening, after a period of suffering of sixteen years, from paralysis. He was 57 years of age.

An evidence of the war has come direct to the BULLETIN office. Hitherto an exchange from Shanghai has come with Japanese postage stamps. It now turns up with German stamps attached.

A policeman was found fast asleep on a pile of sugar on the I. I. S. N. Co.'s wharf last night. Lieut. Hart took his helmet and club away, and the cop was a very much surprised man when he awoke and found his headgear and club missing.

So careful is the blasting done for Cunka's building by contractor F. Harrison's men, that windows within two yards of the excavations have scarcely been shaken, much less broken. The slur in a contemporary was unjust if not malicious.

John G. Mauser, Editor of the Sunbeam, Seligman, Mo., who named Grover Cleveland for the Presidency in Nov. 1882, while he was Mayor of Buffalo, N. Y., is enthusiastic in his praise of Chamberlain's Colic, Cholera and Diarrhoea Remedy. He says: "I have used it for the past five years and consider it the best preparation of the kind in the market. It is as simple as sugar and coffee in this section. It is an article of merit and should be used in every household. For sale by all druggists, E. W. Smith & Co., Agents for the Hawaiian Islands."

The War

between China and Japan will cause prices for their silk fabrics to go higher; no country can fight and weave silk at the same time. The price has already advanced and the papers state that the war is likely to be "on" for two or three years. It behooves the careful buyer to purchase now. We had an immense stock of Japanese Goods ordered before war was declared, consequently we can continue to sell at the old prices as long as our present stock holds out, and then the war will force prices up. Our last consignment consists of Silk Dress Goods, both figured and plain; Morning Gowns for Ladies and Gents, Silk Kimonos, Smoking Jackets, Silk Pajamas, Japanese and China Ware, Screens, Lamp Shades, Lunch Baskets, etc., etc.

The object of the Salvation Army throughout the world is to "reach the unreached" and they've succeeded in thousands of instances. We do not believe the reformatory have always been permanent any more than the efforts of Francis Murphy or the ministrations of Dr. Keeley have proved entirely satisfactory in the matter of intemperance. They, like Mr. Moody, work upon the sympathies of the people, they get them first interested and then enthusiastic, when slap, bang, comes a desire to do better. But because there have been backsliders among the Salvationists or among the people who have once yielded to the persuasive eloquence of the late John B. Gough or a Murphy there is no reason why these reformers should not be encouraged. If a man or woman has gone to the dogs and a curbstone preacher is successful in lifting them up, even temporarily, it is infinitely better than if they had continued on a downward course. Temperance lecturers and Dr. Keeley have been scoffed at because their cures have not been permanent. Suppose they have not! Take, for instance, a man who draws his wages Saturday night and spends it in rum before Monday morning, leaving his wife and children without the necessities of life; "a bad state of affairs you will say." Well, suppose by some means or other he has a year of sobriety, is it not a blessing for his family to have just that one year? Intemperance and crime are close friends and scientific men consider them as diseases, oftentimes hereditary, which like consumption may be cured or relieved according to circumstances.

The Salvationists reach both by getting a hold on one, for it seldom happens that a man who thinks he is religious is a drunkard. We are not giving a lecture on religion nor are we exhorting people to give up their "stout and bitter" nor do we propose to don a red coat and shout hallelujah from one end of town to the other, we merely wish to call your attention to the fact that up to the hour of going to press there has never been a windmill introduced that would compare in any respect with a galvanized steel Aermotor. There are instances right here in Honolulu where wooden mills have been taken down and a steel Aermotor substituted. This has not been done except through a preference for good things, and because people want more water than any wooden mill would pump. A little 12 foot wheel out at the Ostrich Farm forces water 65 feet high through six hundred feet of pipe. It will do more than that but it happens that nothing more is required. A gentleman called on us the other day and wanted a mill and pump that would raise the water fifty feet and force it through thirty-two hundred feet of pipe. We guarantee to do it and never turn a hair. We have never heard of a wooden mill of the same size that would do it, some day there may be one made but we doubt it because the tastes of the people run toward lighter material. The Aermotor has been tried here and is no longer an experiment. When a customer calls upon us to purchase one we first ascertain the work to be done; if it is within the power of a windmill to do it we say so and then guarantee it; we have never had to take a mill back.
